Consultation

A detailed assessment of the human remains was made by the State Historical Society of Wisconsin professional staff in consultation with representatives of the Forest County Potawatomi Community, Wisconsin; Ho-Chunk Nation of Wisconsin; and the Menominee Indian Tribe of Wisconsin.

History and description of the remains

In 1963, human remains representing, at minimum, one individual were removed from a burial located just below the plow zone at Riverbend 1 Site in Waupaca County, WI. The fragmentary human remains were excavated by the State Historical Society of Wisconsin and the Wisconsin Department of Transportation. As the burial had been partially disturbed by plowing, some of the remains were recovered during a surface survey prior to the excavation. The human remains were determined to be those of an adult Native American female. No known individuals were identified. The two associated funerary objects are a quartz shatter and a quartzite flake.

Determinations made by the State Historical Society of Wisconsin

Officials of the State Historical Society of Wisconsin have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice are Native American based on skeletal analysis.
- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Treaties, Acts of Congress, or Executive Orders, indicate that the land from which the Native American human remains were removed is the aboriginal land of the Menominee Indian Tribe of Wisconsin.
- Pursuant to 43 CFR 10.11(c)(1), the disposition of the human remains may be to the Menominee Indian Tribe of Wisconsin.
